

Our service...

Our products

Let our bi-fold doors transform the way you live your life. Whether you choose to relax in a stylish open-plan living area or you want to create beautifully panoramic views from any room, aluminium bi-fold doors from our Aluminium Plus range provide you with the versatility and flexibility to create a relaxing and ambient environment.

Our aluminium bi-folding doors are one of the slimmest on the market, allowing maximum visibility without compromising on strength.

They also have the advantage of being resistant to heat expansion and contraction, so they look great and provide trouble-free performance whatever the weather.

Manufactured to the highest standard, our frames feature the latest security and locking systems fitted as standard, with internal double glazing to prevent the glass being removed from the outside.

The thermal properties of our A-rated toughened glass units help keep your home warm in winter and cool in summer.

Design features

- Chamfered and square bead options
- Stainless steel wheels for smooth operation
- Unique flush line pop-out handle allows maximum door opening
- Low threshold option with a 15mm step height
- Shootbolts top and bottom of the interlocks for enhanced security
- Unique high strength roller design for increased weight capacity
- Dedicated bottom bogey guide for consistent operation and increased security
- Double track threshold allowing greater stability

Our builds

Everyone has their own idea of what will make their home perfect, so let our experts draw on their knowledge and years of experience to help you bring your dreams to life. We'll take care of everything. And we pride ourselves on cleaning up and leaving your home spotless once the project is finished.

Configurations

Available in a range of styles and designs, door leaves can be stacked inside or outside of the room, to the left, right, or split to stack on both sides. Door sets can be manufactured to replace entire walls to maximise your opening space (subject to the structural restrictions of your home).

Our doors are available in any single RAL colour or dual colour option. Although grey, black and white are our most popular choices, you can select from the full range on the back of this brochure. Plus you can choose from a full range of hardware colours.

Grand designs

No matter what you have in mind, talk to us. If you can find it, we can do it... and the chances are, we already have.

Quality Without Compromise
