

# Bespoke Porches

## Why choose us?

Designed especially to suit your property and needs, a porch from Windows Plus will create an enticing entrance to your home, while adding space and enhancing security.

Our fully qualified and accredited experts take the time to work with you to create the perfect porch that's ideally suited to the unique requirements of your property and lifestyle.

We're so confident of the quality of our work, we give a unique 25-year lifetime warranty on parts and labour.

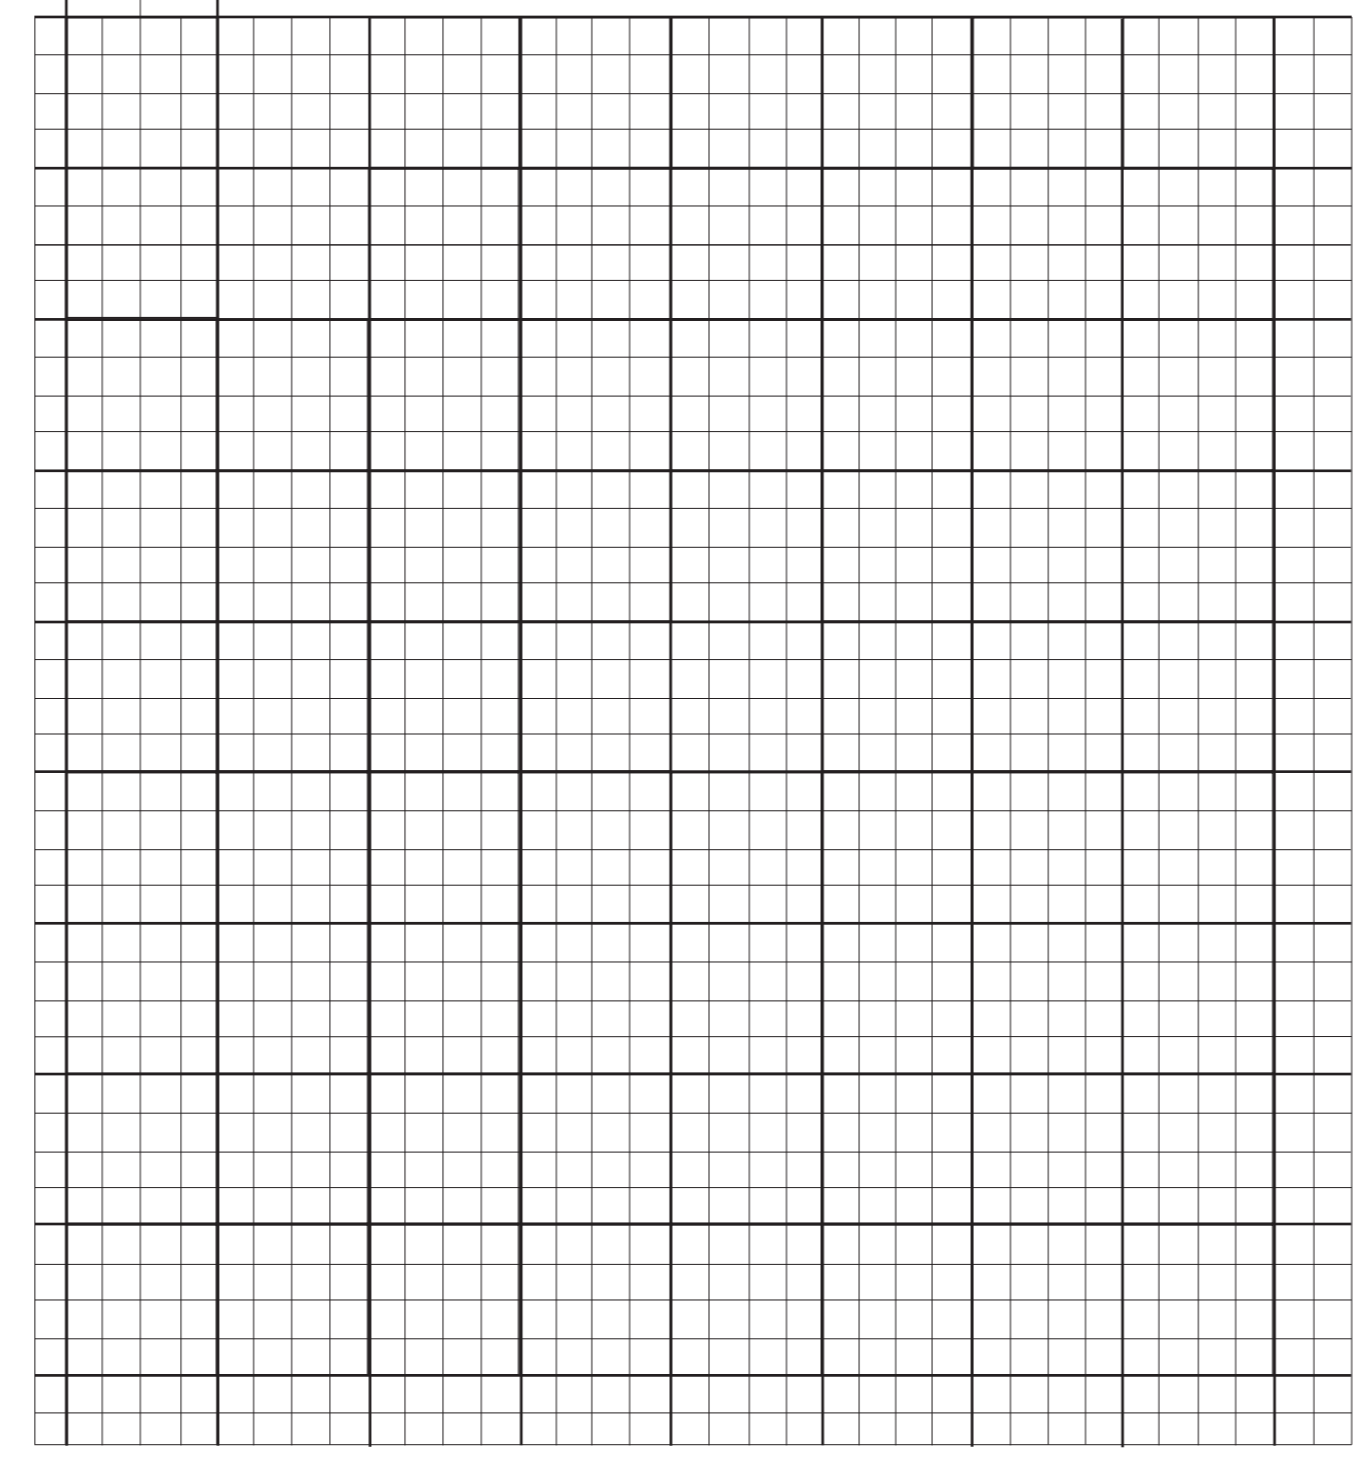

Plus, our dedicated aftercare maintenance department guarantees you'll receive exceptional aftercare.

What's more, we won't ask for any money up front. You'll see the quality and build of the finished work before you're asked to pay a penny.

*Quality Without Compromise*

## Choosing a porch

First impressions are important so our porches are custom made from top quality materials to suit your property.

Everyone has their own idea of what will make their home perfect, and our experts will draw on their knowledge and years of experience to help you bring your dreams to life.

Think about the porch design you would like, then talk to us about your ideas. Draw up some rough measurements on the grid provided on the back of this brochure, or take a photograph of the site to bring to our showroom or show to our visiting estimator.

One of our expert surveyors will visit your home to take detailed measurements and confirm the design.

## Our builds

We'll take care of everything, including digging the foundations, forming the base, building walls, erecting the frames and roof, and fitting the glass. We'll plaster, and lay the floor. We pride ourselves on cleaning up and leaving your home spotless once the project is finished.

Our insulated porch bases are built on a solid concrete slab topped with a highly efficient damp-proof membrane that stops moisture from below, or a joist-based wooden floor

where needed. Both the brickwork and roofing materials will be selected to complement your home.

Manufactured to the highest standard from virgin quality uPVC, our frames feature the latest security and locking systems fitted as standard, with internal double glazing to prevent the glass being removed from the outside. A full range of colours are available.

We have dozens of door styles for you to choose from and combine with a huge range of glass patterns to create the perfect entrance for your home.

Or, you may prefer a composite front door for your new porch, available in a wide selection of beautiful colours and designs. Ask to see our dedicated door brochure, or visit our website at [www.windows-plus.co.uk](http://www.windows-plus.co.uk) and use our door design tool to see exactly how your new door will look.

The thermal properties of our A-rated toughened glass units will help keep your home warm in winter and cool in summer.

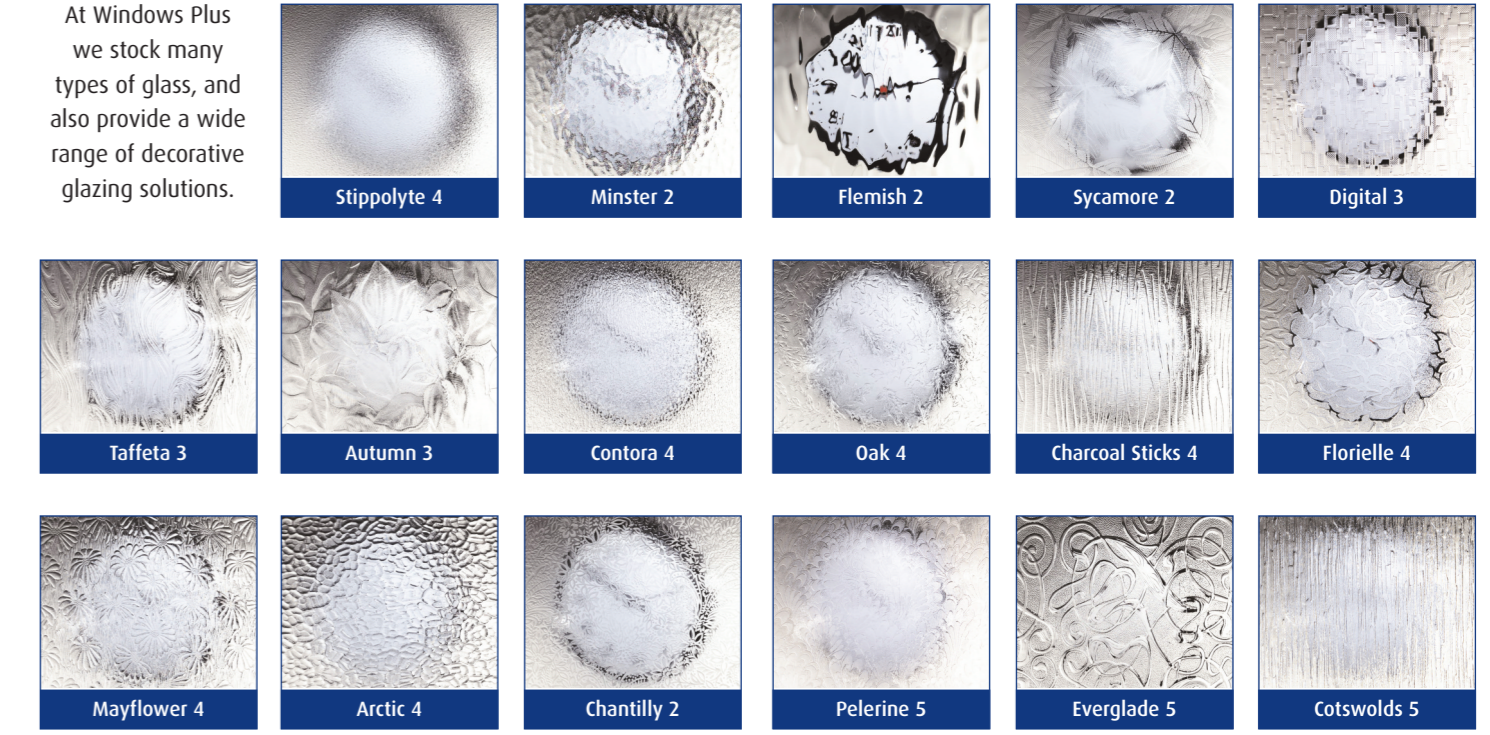

## Grand designs

No matter what you have in mind, talk to us. If you can find it, we can do it... and the chances are, we already have.

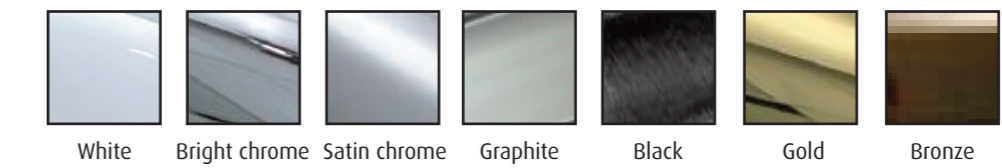

## Glazing, colour and furniture options

### Glass patterns and glazing options

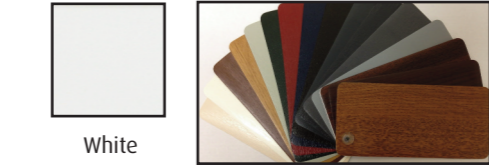

At Windows Plus we stock many types of glass, and also provide a wide range of decorative glazing solutions.
