

Our service...

Our builds

Everyone has their own idea of what will make their home perfect, so let our experts draw on their knowledge and years of experience to help you bring your dreams to life.

We'll take care of everything, and we pride ourselves on cleaning up and leaving your home spotless once the project is finished.

Benefits of aluminium

Let our chic range of aluminium casement windows and doors transform the look of your home.

More and more homeowners are choosing to give their home a sleek, modern makeover with this stylish and very long-lasting material.

The increased strength of aluminium means frames can be slimmer with a lower sight line so there's more space for glass, letting more light into your home.

The slimmer profile and limitless choice of colours helps preserve the unique character of period properties, so aluminium is ideal in Listed buildings or properties in Conservation Areas.

Powder coated aluminium won't discolour, rust or peel, so it will stay attractive and last as long as the building itself. It's suitable for coastal areas, swimming pool environments, or grimy urban environments where uPVC won't last.

Infinitely recyclable, aluminium is very environmentally-friendly.

Our aluminium products have the advantage of being resistant to heat expansion and contraction, so they look great and provide trouble-free performance whatever the weather.

Colour choices

All our aluminium windows and doors are available in any single RAL colour or dual colour option.

Although grey, black and white are our most popular choices, you can select from the full range on the back of this brochure. Plus you can choose from a wide range of hardware colours.

Grand designs

Aluminium gives so much flexibility and choice and has so much to offer that we can't fit all your options in a brochure.

Our experienced estimators can help you achieve whatever you are looking to do. For example, we've just finished a project on a 7-metre, three-way patio door, and you may have seen some of our aluminium work in the Huf Hauses locally.

No matter what you have in mind, talk to us. If you can find it, we can do it... and the chances are, we already have.

Aluminium Profiles: RAL Chart

Aluminium Profiles can be painted in any finish as long as they match a RAL colour

Quality Without Compromise

Why choose us?

Expand your horizons with ultra stylish and chic aluminium windows and doors from Windows Plus.

Our fully qualified and accredited experts take the time to work with you to help you choose the products that are ideally suited to the individual requirements of your property and lifestyle.

We're so confident of the quality of our work, we give a unique lifetime warranty on parts and labour.

Plus, our dedicated aftercare maintenance department guarantees you'll receive exceptional aftercare.

Aluminium windows

Our windows are available in a wide range of styles and designs, including top, side and bottom hung, and tilt and turn.

Windows can be made to project in or out and to suit a wide variety of applications.

Manufactured to the highest standard, our frames feature the latest security and locking systems fitted as standard, with internal double glazing to prevent the glass being removed from the outside.

The thermal properties of our A-rated glass units help keep your home warm in winter and cool in summer, they'll also reduce noise, too.

Entrance, French & patio doors

Make an individual statement and add value to your home with a secure new Aluminium Plus entrance, French or patio door.

Aluminium Plus entrance doors are available in a wide range of styles and designs. They're made to your requirements and can include Georgian, diamond and leaded designs in the glass, decorative aluminium panels and there's a wide choice of hardware, too.

Open your home out to your garden with our stylish French doors. They have the flexibility for daily use as a single door while allowing for double-width opening when required.

Our sliding patio doors open with a smooth movement and are also ideal inside the house as a conservatory partition.

All doors are fitted with high-security multi-point locking systems, so rest assured that your new door will give complete protection from the elements and deter unwelcome intruders, too.

We also offer a fully bespoke range of aluminium bi-fold doors. Please ask to see our dedicated brochure.

Design Features
